Million-Dollar Homes Skyrocket in Miami, as Starter Properties Go Extinct

Single-family homes priced below \$500,000 are getting harder to come by, as wealthy buyers drive up demand for high-end homes

A new market

Since 2019, wealthy buyers have reshaped Miami's luxury market. According to Bozovic, the number of single-family home sales above \$10 million was up 248.4% in 2024 compared with that of 2019.

"These price points didn't exist pre-Covid. The sheer appetite—it's a completely different reality."

Why is money flowing &
What forces are driving it?

Why is wealth increasingly mobile?

- * Both CA and NY lost close to \$1 Trillion in assets, according to corporate filings.
- * And how remarkable is this:
"Connecticut, the hedge fund hub that's long appealed to firms wanting to stay close to New York without being in the city, has now fallen behind Florida in assets under management."
- * The ramifications are staggering, both the negative and the positive.

"Miami, I think, represents the future of America," said Griffin, praising the city's "Incredibly vibrant economy" in remarks at the Citadel Securities Global Macro Conference in Miami, according to a transcript obtained by The Post.

"We'll see how big Wall Street South becomes," Griffin added in remarks that were earlier reported by **Bloomberg**, "We're on Brickell Bay, and maybe in 50 years it will be Brickell Bay North how we refer to New York in finance."

Warren Buffett believes the vast wealth gap in America is due to 1 'inevitable consequence'

“Instead, this widening gap is an inevitable consequence of an advanced market-based economy.”

An advanced market economy

Buffett believes the market economy has become more and more “specialized” with “economic rewards flowing to people with specialized talents.” This, he says, has caused the wealth gap with many people barely getting by while others thrive.

“It was an agrarian economy a couple hundred years ago,” he said in an interview with CNN. “Very hard, you know, to get 20 times the wealth of the next guy because you were a little bit better farmer. But if you’re better at some skills now, you can become incredibly wealthy at a very young age ... You get to capitalize [the] value of an idea. And so the wealth moves big time, even on an anticipatory basis.”

Now, he says, there’s a “mismatch” between the requirements of attractive jobs and the skills of the early American labor force, which is “simply a consequence of an economic engine that constantly requires more high-order talents while reducing the need for commodity-like tasks.”

The brutal truth, he says, is that “a great many people” will be left behind in an advanced economic system.

Stephen Ross Is Transforming Florida's West Palm Beach

Billionaire Stephen Ross amassed his fortune building huge real estate developments such as New York's Hudson Yards. In what's likely the capstone to his career, the 83-year-old is now going all-in on south Florida—specifically West Palm Beach—in a bet it'll become a thriving hub.

Billionaire Citadel boss Ken Griffin sees Miami taking over NYC as US finance capital

Hedge fund manager Ken Griffin said there's a possibility that Miami could one day overtake New York's Wall Street as financial firms worried about rising crime rates migrate to the Sunshine State's business-friendly climate and its lower taxes.

"Miami, I think, represents the future of America," said Griffin, praising the city's "Incredibly vibrant economy" in remarks at the Citadel Securities Global Macro Conference in Miami, according to a transcript obtained by The Post.

How do we align with our region's ascension?

Recognize that underlying conditions fueling the wealth & talent migration will not disappear or reverse. Align with the flow of entrepreneurship and wealth that is reshaping the 21st century.

Mindset is Everything

#TrainingForLife

Have an outcome & believe in it.

Know the power of your mind: our mind creates our reality. You are what you believe & you can teach yourself how to think & mentally react.

We can train our thought patterns like we train our bodies in sports, and how we train ourselves to play musical instruments.

Turn it all into a positive as quickly as possible.

In real time, define an event as a positive part of your path forward.

- Time:
fully realize that time is our most valuable asset, and from there:
- Cut the noise
Most of it is noise.
Do not give time or attention to something that is not part of your path forward.

This is binary: something / someone is part of your path forward, or it is holding you back.

The Finish

My 1st opponent was honestly 270 pounds. Quite the intro to the 70kg+ weight class & quite the anomaly. I was sent this test & it was a blessing. Now I'll never be scared of heavier girls.
